Classes A and B

ANNUAL REPORT

OF

Name: MOUNT HOREB TELEPHONE COMPANY

Principal Office: 200 E MAIN ST

P.O. BOX 65

MOUNT HOREB, WI 53572-0065

For the Year Ended: DECEMBER 31, 2002

TELECOMMUNICATIONS UTILITY TO PUBLIC SERVICE COMMISSION OF WISCONSIN

P.O. Box 7854 Madison, WI 53707-7854 (608) 267-9504

This form is required under Wis. Stat. § 196.07. Failure to file the form by the statutory filing date can result in the imposition of a penalty under Wis. Stat. § 196.66. The penalty which can be imposed by this section of the statutes is a forfeiture of not less than \$25 nor more than \$5,000 for each violation. Each day subsequent to the filing date constitutes a separate and distinct violation. The filed form is available to the public and personally identifiable information may be used for purposes other than those related to public utility regulation.

GENERAL RULES FOR REPORTING

- 1. The annual report due date is April 1 of the following year. (Example: The 2001 report is due April 1, 2002.) If that date falls on a weekend or holiday, the annual report is due the following business day.
- Electronic filing via e-mail is required. Go to the Public Service Commission of Wisconsin's web page at http://psc.wi.gov, click on Telecommunications and click on Annual Report for Incumbent Local Exchange Carriers (LECs).
- 3. LEC entities with no revenues for the report year are required to file a LEC annual report.
- 4. Unless otherwise indicated, the information requested in this report should be taken from the accounts and other records of the utility in conformity with the Uniform System of Accounts prescribed by the Public Service Commission in docket 05-US-102. The definitions and instructions contained therein should also apply to the report wherever applicable. A query or response concerning information contained in this report regarding any practice or transaction should not be construed as indicating conformity to accounting or other pertinent regulations.
- 5. Please follow all instructions and answer each question fully and accurately. Provide additional information as necessary to avoid misunderstandings or misleading responses. Abbreviations listed on page 6 may be used. However, please show the exact name of the respondent in full on the Identification and Ownership page.
- 6. Wherever information is requested in a "note," please show that information in the space provided, or make reference to the adjacent page or insert where the note may be found. Please also identify each note. Footnote capability is included in the annual report software program. Please use it where necessary to fully explain particulars in the annual report.
- 7. Numeric items are limited to digits (0-9). A minus sign "-" should be entered in the software program to indicate negative values. The program will convert the minus sign to parentheses if a hard copy of the annual report is printed. Negative values may not be allowed for certain entries in the annual report due to restrictions contained in the software program.
- 8. Please report all dollar amounts to the nearest whole dollar.
- 9. This annual report should be complete in all respects. Unless otherwise authorized, avoid references to returns of former years or to other reports.
- 10. Wherever schedules call for data from the previous year and such data were reported in the previous annual report, the previous year's data should be reported without modification. If modified, an appropriate footnote indicator and explanation should be included in the current year's annual report.
- 11. Where part or all of the report is prepared by other than utility personnel, a disclosure is required in the "Individual or firm, if other than utility employee, preparing this report" portion of the Identification and Ownership schedule, which describes the nature and extent of work performed.
- 12. The LEC annual report program incorporates provisional confidentiality capability for selected items, based on the Commission's confidentiality determination dated February 5, 2002.
- 13. It is not necessary to sign the signature page.
- 14. Edit Check, Confidential Listing, Exported Annual Report, and Export Status Files; Filing the Completed Report:

Date Printed: 04/22/2004 7:57:43 AM

GENERAL RULES FOR REPORTING

Program edit checks, which are located under the Admin dropdown menu, should be run at the completion of data entry. Each edit problem lists pertinent schedule(s) as well as the nature of the problem (such as "does not equal"). Edit items should be reviewed and corrected; unresolved problems should be footnoted in the report, if necessary. This screen automatically saves the edit checks to an .edt file that may be viewed and edited (for purposes of adding necessary notations) using a word processing package such as WordPad.

The confidential listing, which is located under the Admin dropdown menu, should also be run at the completion of data entry. This will create a .clf file.

Select the annual report to export from the Main-Report Selection window. Click Admin, Export Data to PSC to start the export process. This will create an .mdb file, which will subsequently be encrypted to a file with an .sen extension. An export status file is also created (with a .txt extension). The export status report file may also be viewed in a word processing package such as WordPad. If you encounter any export errors, please contact the Commission for assistance.

The .edt, .clf, .sen, and .txt files will be zipped to a file with a .zip extension. An e-mail message will be created, addressed to pscrecs@psc.state.wi.us. The .zip file is automatically attached to the e-mail message. After the e-mail is created, it will automatically be sent to the Commission.

Once received and processed by the Commission, you will receive a response indicating that your annual report has been received and is being processed. You will be notified if there are any problems with the annual report filing.

15. Name Changes:

If a name change is identified in the report, documents from the State of Wisconsin Department of Financial Institutions (DFI) also must be submitted to the Commission:

A domestic corporation should send a copy of the stamped page from its Articles of Amendment as filed with DFI. A foreign corporation should send a copy of their Amended Certificate of Authority as issued by DFI. *These documents can be obtained by:*

- 1. Calling DFI at (608) 261-7577;
- 2. Contacting DFI on the web at www.wdfi.org; or
- 3. By writing to DFI at P.O. Box 7846, Madison, WI 53707-7846.

While the electronic annual report filing may detail the name change (i.e., date of the change and the affected entities with their respective four-digit Commission utility identification numbers), a name change is not effective in the Commission's records until a separate notification letter is sent to the Commission including documentation to confirm registration of that change with the State of Wisconsin Department of Financial Institutions.

16. Changes to the Annual Report Subsequent to Filing:

If making revisions to the report subsequent to filing with the Commission, resubmit the report via e-mail following the procedures set forth above in item number 14. New edit check, confidential listing, exported annual report, and export status files should be created as a result of the revisions.

ANNUAL TELECOMMUNICATIONS REPORT GLOSSARY OF TERMS

Access Line Central office line equipment, or equivalent, and all outside plant facilities, or equivalent,

> required to connect the serving central office with the customer premises via physical connection, frequency transmission, and/or time slot transmission. From an engineering perspective, a channel connection is at a DS0 level. A DS0 level is a 4 KHz voice channel or a

64 kilobits per second digital channel.

Analog Signal A signal that varies in a continuous manner such as voice or music. An analog signal must be

contrasted with a digital signal which can assume only discrete values.

A high capacity land mobile radio system in which an assigned frequency spectrum is divided Cellular System

into discrete channels that are assigned to a cellular geographic serving area.

Central Office A switching unit in a telephone system providing service to the general public, having the

necessary equipment and operating arrangements for terminating and interconnecting lines

and trunks.

Centrex A service for customers with many stations that permits station-to-station dialing, one listed

> directory number for the customer, direct inward dialing to a particular station and station identification on outgoing calls. The switching functions are performed in a central office

(stand alone, host or remote).

Channel An electrical communications path between two or more points. A single pair of wires may

provide more than one channel. A channel may also be provided by microwave.

A person who uses a telephone as a subscriber. Customer

Digital Signal A signal that has a limited number of discrete states. This may be contrasted with an analog

signal that varies in a continuous manner and may have an infinite number of states.

Equal Access The ability of the subscriber to use any long distance service by dialing the same number of

digits.

Exchange A defined area served by one or more central offices regardless of technical serving

> arrangements within which the company furnishes service at rates and rules prescribed for that area in the company's filed tariffs. The area is not necessarily marked by political

boundaries or the location of host or remote switching units.

Extended Area The ability of a customer to call customers in other exchanges at no additional charge or at an

additional charge per tariff. Service (EAS)

Extended The ability of a customer to call customers in other exchanges at rates usually above EAS

rates but below toll rates for comparable distances. Rates generally include a duration Calling (ECC) element.

Feature Group A Line-side originating and terminating LATA access for which an originating subscriber dials an

> assigned telephone number that connects to a specific interexchange carrier (IC). The IC returns a tone to signal the caller to input additional generated digits of the called number.

Community

ANNUAL TELECOMMUNICATIONS REPORT GLOSSARY OF TERMS

Feature Group B Trunk-side originating and terminating LATA access for which an originating subscriber dials a

> 950-WXXX number (where W=0, 1 and XXX is the carrier access code (CAC)), which is translated to a specific XXX carrier trunk group. Optional rotary dial service and ANI may be

available.

Feature Group C Trunk-side LATA access for AT&T-Communications generally on a direct

basis between each end office (EO) and an AT&T-C switching system.

Feature Group D Also referred to as equal access. It is trunk-side LATA access affording call supervision of an

interexchange carrier, a uniform access code (10XXXXX), optional calling party identification,

recording of access-charge billing details and presubscription to a customer specified

interexchange carrier.

FX-IN A nonswitched service where the customer of the company is connected to and receives

switching service through central office equipment located in another exchange area.

A switched service where facilities are provided from the central office out to the exchange **FX-OUT**

boundary where it meets the line from a foreign exchange subscriber.

Host Switching

A switching system that provides centralized control over most of the switching functions of **System** one or more remote switching units. The host switching system usually provides trunk access

to the operating company intraLATA networks.

Local Access Transport Area (LATA)

A geographic area within which an operating company may offer its telecommunications

services.

Mobile Telephone A service which provides radio telephone communication from a mobile vehicle to another

vehicle or to a regular telephone.

A service which provides one-way signal or voice communication over a radio channel to a **Paging**

miniature receiver carried by the customer.

Pair Two wires of a single circuit.

Pay Station A telephone which normally requires all users to deposit one or more coins or use a

credit card to complete a call.

Private Line

Service

Channel or circuit rented for private use and not intended to be connected to the general

distribution system.

Private Branch Exchange (PBX) A manually, or operator controlled switching system, usually on the customer's premises,

which serves that customer's telephones over a common group of lines from the central office.

Radio Common Carrier (RCC)

A company which furnishes public telecommunications service using one or more radio

channels.

Remote Switching An electronic switching system that is remote from its host or control office. All of the central

Unit (RSU) control equipment for the RSU is located in the host switching system.

ANNUAL TELECOMMUNICATIONS REPORT GLOSSARY OF TERMS

Route Miles

Total number of route miles (to the nearest mile) of operating plant facilities including drop wire in the exchange. One route mile may consist of:

- 1. One mile of roadway with any combination of outside plant facilities on any number of rights-of-way.
- 2. One mile of a cross country route with any combination of outside plant facilities.
- 3. One mile of point-to-point microwave or radio link.
- 4. One mile of plant on either side of a limited access highway or natural barrier, such as a navigable waterway.
- 5. One mile of joint use line where the utility either owns the facility or leases space.

Stand Alone Switch

A central office switch which has no remote switching units (RSUs) subtending it.

Trunk

A communications path connecting two switching systems in the establishment of an end-to-end connection.

Wide Area Telephone Service (WATS)

Customer leased access line or lines connected to the nationwide network over which an unlimited number of calls can be made for a fixed monthly charge.

Wire Center

The location of one or more local switching systems. A point at which customers' loops converge.

NOTES TO INCOME STATEMENT OR BALANCE SHEET

In the space provided below, disclose all material information not included elsewhere in this report that is necessary to make the financial statements clear and understandable. Included should be:

1. A summary of significant accounting policies. (The summaries should disclose, but not be limited to, the utility's accounting policies with regard to pension cost, unbilled revenues, depreciation, and income taxes.)

The accounting policies of the company conform to generally accepted accounting principles. Management uses estimates and assumptions in preparing its financial statements. Those estimates and assumptions effect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities, and the reported revenues and expenses. Telephone operations reflect practices appropriate to the telephone industry. The accounting records of the company are maintained in accordance with the Uniform System of Accounts for the Class A and B Telephone Companies prescribed by the FCC as modified by the PSCW. Telephone plant and other property are capitalized at original cost including: the capitalized cost of salaries and wages, materials, certain payroll taxes, employee benefits, and interest incurred during the construction period.

The company provides for depreciation for financial reporting purposes on the straight-line method by the application of rates, based on the estimated service lives of the various classes of depreciable property. Renewals and betterments of units of property are charged to telephone plant in service. When telephone plant is retired, its cost is removed from the asset account and charged against accumulated depreciation, together with removal cost less any salvage realized. No gains or losses are recognized in connection with routine retirements of depreciable property. Repairs and renewals of minor items of property are included in plant specific operations expense.

Income taxes are accounted for using a liability method and provide for the tax effects of transactions reported in the financial statements including both taxes currently due and deferred. Deferred taxes are adjusted to reflect deferred tax consequences at current enacted tax rates. Deferred income taxes reflect the net effects of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes. Significant components of the Company's deferred taxes arise from property and equipment and investments. The deferred tax assets and liabilities represent the future tax return consequences of those differences, which will either be taxable or deductible, when the assets and liabilities are recovered or settled.

Revenues are recognized when earned regardless of the period in which they are billed. Network access service revenues are derived from charges for access to the Company's local exchange network. The interstate portion of access revenues are based, in part, on cost separation procedures, except for traffic sensitive rates which are based on company tariffed rates, on file with the FCC. The intrastate portion of access revenues are billed on individual company tariff access charges approved by the PSCW. Debt and marketable equity securities bought and held principally for selling in the near future are classified as trading securities and carried at fair value. Unrealized holding gains and losses on trading securities are reported in earnings. Debt and marketable equity securities classified as available for sale are carried at fair value with unrealized holding gains and losses recorded as a separate component of

NOTES TO INCOME STATEMENT OR BALANCE SHEET

In the space provided below, disclose all material information not included elsewhere in this report that is necessary to make the financial statements clear and understandable. Included should be:

stockholders' equity. Debt securities for which the company has both the positive intent and ability to hold to maturity are classified as held to maturity and carried at amortized cost. The company uses the FIFO of computing realized gains and losses. Nonmarketable equity investments, over which the Company has significant influence or a 20% ownership, are reflected on the equity method. Other nonmarketable equity investments are stated at cost.

2. A summary of significant contingent assets and liabilities existing at year end, including a brief explanation of any action initiated by the Internal Revenue Service, Wisconsin Department of Revenue, or the utility involving a possible assessment or refund of taxes.

None

3. A summary of significant contingent assets and liabilities existing at year end, including a brief explanation of any action initiated by the Internal Revenue Service, Wisconsin Department of Revenue, or the utility involving a possible assessment or refund of taxes.

The mortgage to the United States of America, underlying the RUS and RTB notes, contains certain restrictions on the declaration or payment of cash dividends, redemption of capital stock, or investment in affiliated companies except as might be specifically authorized in writing in advance by the RUS and RTB noteholders.

IMPORTANT CHANGES DURING THE YEAR

- 1. Estimated increase or decrease in annual revenues due to important rate changes, giving bases of estimates.
 - Note 1: The company lowered the residential service rate from 17.50 to 13.85 as of July 1, 2002. This result of this rate decrease lowered local area revenue by approximately \$86,000 for the second half of 2002.
 - Note 2: Interstate special access rates were adjusted to levels specified in the company's interstate access tariff dated 7-1-02. Estimated increase in the annual revenue is \$32,000. Estimate based on historic cost and demand from the previous two years.
- 2. Additional matters of fact (not elsewhere provided for) which respondent may desire to include in its report.
 - Note 1: Carrier Access Bills written off as uncollectibles in 2002 due to bankruptcy settlements totaled approximately \$92,500.

AFFILIATE ABBREVIATIONS

In column (b) provide the abbreviation for the name of the affiliate shown in column (a). Limit abbreviations to 10 characters or less. Use these abbreviations when completing the affiliated interest schedules. Insert "Other" in the Abbreviations column if the activity to be reported for a particular record in the Affiliated Interest Transactions or Affiliated Assets and Liabilities schedule represents an aggregation of activity not exceeding the dollar or percentage limits set forth in the header of that schedule.

Name of Affiliate	Abbreviations	
(a)	(b)	
MH Communications, Inc	MHCOM	1
MH Telecom, Inc	MHTELECOM	2

AFFILIATED INTEREST TRANSACTIONS

Provide a summary of transactions under established affiliated interest contracts and arrangements (see Wis. Stat. § 196.52, for "affiliated interest" definitions). Use the space below to report transactions with individual affiliates and multiple affiliated interest agreements or, at the utility's option, with individual affiliates and a single agreement. Activity associated with affiliated contracts or arrangements not in excess of \$25,000 or 5 percent of the equity of the utility, whichever is smaller, may be aggregated in a single record. For utilities whose intrastate gross operating revenues of the previous year exceeded \$100,000,000, individual contracts or arrangements not exceeding \$100,000 may be aggregated in a single record. Where an affiliate is both providing and receiving service use one record to show billings to and a second record for billings from. When billings to or from an affiliate are recorded on the books of the utility, the records underlying such billings shall be sufficient to show all the detail maintained to identify the associated accounts related to the billing.

TELECOMMUNICATIONS PLANT IN SERVICE CLASS A & B (SUB-CLASS ACCOUNTS)

Report telecommunications plant data for each subaccount where primary plant accounts have subclassifications. Amounts pertaining to subaccount 2212.4, Test Equipment, should be reported in account 2212.2, Digital Switching - Central Office; amounts for subaccounts 2231.3, Microwave, 2231.4, Cellular, 2231.5, Mobile Radio, and 2231.6, Paging, should be included in 2231.2, Other Radio Facilities; amounts pertaining to subaccounts 2232.4, Digital Data Services, 2232.5, Digital Circuit - Subscriber, 2232.6, Digital Circuit - Trunk - Toll, and 2232.7, Concentrators, should be reported in 2232.1, Digital Circuit Equipment. Any other separate accounting for telephone plant at an individual telephone company should be consolidated and reported in the primary accounts as defined in the uniform system of accounts.

GENERAL, SCHEDULE LEVEL AND SCHEDULE LINE FOOTNOTES

General Footnote

Schedule Footnotes

Schedule Line Footnotes

- A) The transfers/adjustments column for the capital lease item represents payments made to the Telephone Company from the customer who is leasing the equipment. The customer will own the equipment at the end of the lease.
- B) At January 1, 2002, the Subscriber line charge went from \$3.50 for both residential and business customers to \$5.00 for residential customers, \$5.00 for single-line business customers, and \$9.20 for multi-line business customers. Also, on July 1, 2002, the residential and single-line SLC increased from \$5.00 to \$6.00.

In addition to the SLC charges changing, the federal universal charge also changed throughout the year. The federal universal charge was implemented on September 1st, 2001 at \$0.34 and that rate was still in effect on January 1st, 2002. As of April 1st, 2002 the charge was \$0.37, and as of July 1st, 2002 the rate was changed to \$0.46.

The Federal Universal surcharge of 6.8941% also was in effect for the entire year of 2002. The FUSC surcharge began on September 1, 2001.

C) The carrier common line originating and terminating rates decreased for interstate revenues which resulted in approximately \$60,000 decrease in 5082 revenues for the last six months of the year.

Also, the NECA overearnings adjustment and revenue requirements resulted in adjustments to 5082 which resulted in lowering revenues by \$153,000 in 2002. In prior year, this entry resulted in additional revenue of \$98,000.

D) Interstate special access rates were adjusted to levels specified in the companys interstate access tariff dated 7-1-02. Estimated increase in the annual revenue was \$32,000. The estimate was based on historic cost and demand from the previous two years.

It was also determined that a special access customer had not received a bill for services rendered in 2001. This accounted for approximately \$6,000 of additional revenue in the current year which was actually incurred in 2001.

- E) In current year, switching and trunk port revenue is included in this account which is about \$12,500. Also, the general support asset usage allocation to affiliates increased by approximately \$24,000.
- F) Mount Horeb Telephone Company stopped billing for AT&T. This accounts for approximately a \$16,500 decrease to interstate billing & collecting.
- **G)** Intrastate billing & collecting for Ameritech decreased by \$5,000. Mount Horeb Telephone Company also had an increase in billing for affiliates which increased revenues by approximately \$80,000.
- H) Mount Horeb Telephone Company had to write off approximately \$92,500 due to the interexchange company bankruptcies.

GENERAL, SCHEDULE LEVEL AND SCHEDULE LINE FOOTNOTES

- I) An employee who was part-time performing billing functions in the prior year went to full-time in June 2002, with half of the time going to perform local area network functions. This resulted in an increase ir salaries and related items of \$7,600. Disbursements increased by \$15,000 as well due partly to increased consulting services for a server upgrade and also the company purchased more items such as data cartridges, toner, and printers, and other miscellaneous equipment. The company also purchased additional cubicles and filing cabinets which resulted in ar increase in account 6122 of \$\$7,600. In addition, the Company purchased a fax machine, two palm pilots, and a labelmaker for an increase of \$4000 expenses to account 6123.
- J) Employees spent more time on DSL installations and training on various equipment in the current year. Payroll and related items in the current year accounted for \$18,500 of the increase in the 6232.2 account. Also, the cost of training courses and meals for the plant employees totaled approximately \$3,700. More miscellaneous equipment such as fiber jumpers were also purchased in the current year.
- K) Testing expense decreased from the prior year due to the new switch cutover occurring on April 1st, 2001 and more employee time being put to testing expenses in the previous year because of this.
- L) Mount Horeb Telephone Company had a switch cutover on April 1st, 2001. Payroll expenses were higher in the prior year due to this. Payroll expenses were \$20,000 higher in prior year. Ameritech STP charges decreased by \$7,300 in the current year.
- M) Mount Horeb Telephone Companys General Manager allocated more time from his salary to external relations in the current year versus prior year. This accounts for approximately a \$9,000 decrease in 6710 executive expense and a \$9,000 increase in 6720 external relations account.
 - In addition, board members are paid for each meeting attended. In 2002, there were two less meetings than in the prior year, which accounts for a \$6,000 decrease in the executive expense.
- O) Mount Horeb Telephone Companys General Manager and Director of Business Development allocated more time to external relations in the current year versus prior year due to time spent on the alternative regulation plan. This accounts for approximately a \$12,500 increase in 6720 external relations account.

Mount Horeb Telephone also incurred additional expenses related to the alt-reg plan for consulting work, expenses paid to the Public Service Commission of Wisconsin, and legal expenses. Approximately \$65,000 can be attributed to additional disbursements made for work on the alt-reg plan. The remaining increase to the 6720s is a general increase in miscellaneous expenses incurred.

- P) Zero value indicates zero circuits at year end.
- Q) 3490ATF102, 3490ATF103, 05ATF132
- R) 05ATF134, 3490AT103, 05AT132
- S) Majority of employees time in 2002 was charged to affiliate operations. Therefore, expenses are properly recorded by affiliate.
